## Driver Responsibilities

University vehicles may be used in conducting official University business by employees and students who possess a valid operator's license of the appropriate class and are responsible for use of the vehicle in accordance with University policy and State and local laws. Drivers with a provisional driver's license are responsible for adhering to the restrictions of that license.

### Safe Driver Awareness

---

UC Davis [policy](#) requires department heads to provide safe driving information to all employees who drive on official University business. Campus drivers who drive an average of 10% or more of total work time (excluding law enforcement) are required to complete a safe driver training course. In conjunction with UC Davis Extension, Fleet Services has developed online Safe Driver training modules for use by campus drivers that may be used to meet these requirements.

These [Safe Driver Awareness](#) videos are available through Staff Development. Enroll on-line at <http://lms.ucdavis.edu/> (UCD Login required). Once you are logged in, search for "Safe Driver" to find the Safe Driver courses. Click the Start button below the search results to launch the course.

Failure to cancel a reservation will result in a one day rental charge. To avoid this charge, reservations must be cancelled at least 24 hours in advance. Reservations may be cancelled by calling 530-752-0787 or email: [VehicleReservation@ad3.ucdavis.edu](mailto:VehicleReservation@ad3.ucdavis.edu).
